Hi Peter,
We want to prepare for taking splits of the two additional riprap sediment samples... so let us know when you're thinking to collect them.
Thanks,
juliet

Hi Peter,

Thank you for splitting the files.
Based on the Conclusions in the report (pp. 27, 28), are the two additional riprap sediment samples recommended going to be collected soon? If so, when? It seems those samples would be simple to collect and transmit the results to us before we even get back to you with our full review comments of the report.
Let me know soon please.

Thanks,
Juliet

Hi Juliet,
I've split the files to text+tables and figures only. The text/tables are attached. Figures to follow.
Peter

Thank you, Peter,

I received the Sims report. I'm working at home today and probably won't be able to download it here. Is there a summary section that is not so voluminous that you could email me? I'd appreciate it.

Thanks,

Juliet

Subject: Submittal: Draft Sediment Investigation Report

Juliet,

I am pleased to submit, on behalf of Sims Metal Management (Sims) the attached *Draft Sediment Investigation Report* for the Sims facility in Redwood City, California.

Please contact me if you have any questions or comments.

Regards,

Peter
